

Sheet1

Matrikkel	BugHunt bonu	bugs found/fix	lab1	Bugzilla	report	comment
98117			8	45	55	Well done! But Bugs from AHT should be also documented in Bugzilla
A00793			8	45	55	Well done! But Bugs from AHT should be also documented in Bugzilla
A01118			0			
A20413	2	5/4/22	8	50	55	Excellent!!!
A21624			0			
A40946	3	5/1/69	8	50	55	It seems that you were very annoyed with this lab, you had to just read the requirements in section 3 and follow it, anyway you did much more than was needed for this lab
A52925			7,2	35	55	Hard to replicate deffect from bug description; few bugs documented
A62054			0			
A71821			6,4	35	45	High-level description is too high-level; just 2 bugs found
A72027	3	5/5/13	8	50	55	I found only one bug report in Bugzilla; anyway some bug reports are described in the lab report
A72044			8	50	55	Thanks for feedback; well done
A72080	4	7/7/33	7,2	35	55	Too few bug documented
A73516	2	4/4/121	8	50	55	Well done!
A73560	4	6/6/16	7,2	35	55	Hard to replicate deffect from bug description; few bugs documented
A73883			7,2	35	55	2 deffects (out of 4) was sufficiently documented
A81902			8	50	55	report is unsigned; well done! Thanks for feedback! Lots of bugs found
A81919			7,6	50	45	Did not put names of group members; AHT plan is very brief
A81942	4	8/8/22	6	30	45	Too high level description; too light comparison; bug report doesn't contain inputs and expected output; shallow defect report
A82956			0			
A92243	4	7/7/34	8	50	55	Thanks for feedback; well done
A92310			6	30	45	Too high level description; too light comparison; bug report doesn't contain inputs and expected output; shallow defect report
A92325			8	50	55	Well done!! Nice anf short conclusion

Sheet1

A92420	4	6/5/19	4,4	35	20	High-level AHT desc is a copy-paste from lab instructions; Test cases are copy-paste from App E; comparison of AHT and MFT is copy-paste from different internet resources; from bug report it is hard to replicate the defect
A92775	4	8/8/20	8	50	55	Well done!!
A93273	4	8/8/22	8	50	55	Well done!! Thanks for constructive feedback
A93830	2	4/4/29	6,4	50	30	AHT high-level description is a citation from another document; AHT are just copy-paste from Appendix E, you had to come up with own random TC and write briefly how did you come up with it; comparisopn of AHT and MFT is not your thoughts also; bug reports presented very well
A93847	4	9/9/29	5,6	15	55	Bug report doesn't contain anything from p.3.1. From lab instructions. Num of bugs found quite small
A94096	2	4/3/21	8	50	55	Thanks for feedback; well done
A94168	4	8/7/19	8	50	55	Well done!!
A95496	3	5/5/24	7,6	40	55	Just 2 (out of 12) bugs documented sufficiently (ID 10 and 11)
A95503			0			
A95505	4	7/7/21	8	50	55	Well done!!
A96171	4	5/5/16	8	50	55	Excellent!!!
B00866			7,2	45	45	Weak understanding about diff between AHT and MFT; deffect presentation is not clear, hard to find bug description
B02130	4	7/5/30	7,6	40	55	No substantial bug description in Bugzilla, use cases copied to the field Description
B02131	4	7/7/42	8	50	55	Thanks for feedback; well done
B03306			0			
B03336	4	9/9/27	8	45	55	From bug report it is hard to replicate the deffect
B04856	3	5/5/40	6,4	50	30	AHT high-level description is a citation from another document; AHT are just copy-paste from Appendix E, you had to come up with own random TC and write briefly how did you come up with it; comparisopn of AHT and MFT is not your thoughts also; bug reports presented very well
B04866			7,6	40	55	No substantial bug description in Bugzilla, use cases copied to the field Description
B04867	4	7/7/24	8	50	55	Well done!! Nice anf short conclusion
B04868	3	5/5/30	8	50	55	Well done!!

Sheet1

B04872	2	7/-/33	7,2	50	40	no high-level description; sparse understanding of diff between AH and MFT
B04876			6,8	40	45	Didn't specify concrete idea of a ad-hoc testing, just describe actions; few ad-hoc test cases, test each system functions just one time;half of bugs has poor information
B04879	1	4/-/16	7,6	40	55	Documented just 4 faults
B04882	4	7/7/40	7,6	40	55	Poor defect documentation, not obvious where to start
B04883	2	7/-/22	7,2	50	40	no high-level description; sparse understanding of diff between AH and MFT
B04884			7,6	40	55	No substantial bug description in Bugzilla, use cases copied to the field Description
B04886	4	7/5/30	8	50	50	In the AHT step specified just faulty test cases
B04894			8	45	55	Well done!!
B04897			7,6	40	55	Documented just 4 faults
B04953	4	7/7/46	7,6	40	55	No substantial bug description in Bugzilla, use cases copied to the field Description
B04959			7,2	50	40	Did not provide AHT test caces
B04963	4	8/8/50	8	45	55	Well done!!
B04964	4	7/7/21	7,6	40	55	Poor defect documentation, not obvious where to start
B04965			7,2	35	55	Lack of defect information; Bugreport contains number of comments, difficult to follow
B04966	2	2/1/18	7,2	35	55	Lack of defect information. Bugreport contains number of comments, difficult to follow
B04970			0			
B04971	2	3/3/14	7,6	40	55	Just 2 (out of 12) bugs documented sufficiently (ID 10 and 11)
B04973	4	6/6/21	8	50	55	Well done!!
B04977	4	9/9/20	8	45	55	From bug report it is hard to replicate the deffect
B04994			6,4	35	45	High-level description is too high-level; just 2 bugs found
B05126			8	45	55	Bugs reported not as was required, but very precise anyway; additional thanks for the comment from developer's side
B06462			0			
B06657	1	4/-/14	7,6	50	45	Did not put names of group members; AHT plan is very brief
B11208	4	6/6/28	8	50	55	It seems that you were very annoyed with this lab, you had to just read the requirements in section 3 and follow it, anyway you did much more than was needed for this lab

Sheet1

B11857	2	5/4/40	4,4	35	20	High-level AHT desc is a copy-paste from lab instructions; Test cases are copy-paste from App E; comparison of AHT and MFT is copy-paste from different internet resources; from bug report it is hard to replicate the defect
B14246			0			
B15634			8	45	55	Just few bugs reported, but documented very well! Well done!!
B15635			6,8	40	45	Too many AHT test cases; very brief comparison of AHT and MFT; duplicate test cases in bug description
B15636			6,8	40	45	Too many AHT test cases; very brief comparison of AHT and MFT; duplicate test cases in bug description
B15637			8	50	55	Well done!!
B15638	2	4/1/19	4,4	10	45	report is unsigned; no high-level desc of AHT; only on bug report in Bugzilla was found
B15639			8	50	55	Well done!!
B15640	2	4/4/13	8	45	55	From bug report it is hard to replicate the defect
B15642			8	50	55	Well done!!
B15643			4,4	10	45	report is unsigned; no high-level desc of AHT; only on bug report in Bugzilla was found
B15644	4	5/5/34	8	50	50	In the AHT step specified just faulty test cases
B15646	1	5/-/13	7,2	35	55	Too few bug documented
B15648	2	4/2/12	7,6	40	55	Bug description is quite sparse,hard to localize the the defect, not obvious where to start to replicate the defect
B15651			8	45	55	Just few bugs reported, but documented really well!
B15655	4	7/7/24	8	45	55	Too many AHT test cases, just first 10 would be enough; you are leaders in num of bugs found! Congrats! But you documented them incorrectly
B15656	4	6/6/26	8	45	55	Just few bugs reported, but documented very well! Well done!!
B15657	2	4/3/12	5,6	15	55	Bug report doesn't contain anything from p.3.1. From lab instructions. Num of bugs found quite small
B15663	4	9/9/81	6,8	40	45	Didn't specify concrete idea of a ad-hoc testing, just describe actions; few ad-hoc test cases, test each system functions just one time;half of bugs has poor information
B15691	4	6/6/14	8	45	55	Just few bugs reported, but documented really well!
B16032			8	45	55	Bugs reported not as was required, but very precise anyway; additional thanks for the comment from developer's side

Sheet1

B16067			7,6	40	55	Bug description is quite sparse,hard to localize the the deffect, not obviouse where to start to replicate the deffect
B16145	4	7/7/42	8	45	55	Too many AHT test cases, just first 10 would be enough; you are leaders in num of bugs found! Congrats! But you documented them incorrectly
B31742			7,2	35	55	2 deffects (out of 4) was sufficiently documented
B31743	2	4/4/121	8	50	55	Well done!
B31744			8	45	55	in bug report no steps to replicate the bug described; well done!
B31745			8	45	55	in bug report no steps to replicate the bug described; well done!
B31746			8	50	55	I found only one bug report in Bugzilla; anyway some bug reports are described in the lab report
B31747			8	50	55	Well done!
B31748			8	50	55	report is unsigned; well done! Thanks for feedback! Lots of bugs found
B31749			8	50	55	Well done!
B31750			0
