Due 08.00 Teisipäeval 22 Marts 2016

Please upload your writeup and example programs as one compressed folder. You need not use an online judge for your example programs, though do make sure you explain how they work and write them as clearly as possible. Optimize your 6 hour time limit - choose your problems to give you as much of an introduction to the areas that are discussed

Exercise 1
Read and summarize chapter 5. Then solve at least half of the challenge problems from chapter 5.

Exercise 2
Review a recent paper on good implementations of graph algorithms.

Exercise 3
How long did this take you? Stop when get to 6 hours.
