Notes Grading Guidelines

January 15, 2017

LECTURE NUMBER:

Marking guidelines: Each set of notes gets a score out of 50. 10 points for each of the sections below. When assigning points, please be a constructive but demanding critic. Good scores should be in the range 30-40, because one can always do more, and given the time constraints this may not be possible. In the comments and suggestions section, please indicate what could have been done that would result in a higher score.

a) Clarity of notes? (10 points)
b) Completeness of notes? (10 points)
c) Correctness of notes? (10 points)
d) Extension of lecture material? (10 points)
e) Did you learn something? (10 points)
