Presentation Grading Guidelines

January 15, 2017

PROJECT TITLE:

PRESENTERS NAME(S):

Marking guidelines: Each presentation gets a score out of 50. 10 points for each of the sections below. When assigning points, please be a constructive but demanding critic. Good scores should be in the range 30-40, because one can always do more, and given the time constraints this may not be possible. In the comments and suggestions section, please indicate what the presenters could have done that would result in a higher score.

a) Clarity of presentation? (10 points)
b) Are the questions addressed interesting and relevant to this course? (10 points)
c) Are the methods used to answer the questions appropriate? (10 points)
d) Do you believe their results? (10 points)
e) Did you learn something? (10 points)
