ON-DEMAND PLATFORM FOR HEAVY GOODS DELIVERY

"Too big for Bolt. Too small for DHL. Too expensive on weekends. Saya fills the gap that every logistics giant ignores."

THE PROBLEM

THREE SIDES OF THE SAME NIGHTMARE

The Customer orders a sofa and asks you to figure out delivery. You end up calling a "friend of a friend" with a big enough car who's free on Saturday. Stressful, expensive, unreliable.

OUR SOLUTION

Saya is a three-sided on-demand marketplace that connects customers, retail stores with idle vehicles, and independent carriers : making heavy goods delivery as easy as ordering a taxi, available any day of the week. No existing platform in Estonia combines on-demand availability, heavy goods capacity, weekend service, and retail sto
