

# randomWorkoutGenerator (rWG)

Unusta rutiin ja igavad trennid!

The screenshot shows the 'Workout' tab of the application. It features three exercise type selection fields, each with a 'Back' dropdown menu and an 'Exclude' button. Below these are two radio buttons: 'Send me the workout via email' (selected) and 'Save the workout to 'workout.txt''. At the bottom, there is an 'Email address' input field with a red error message 'Enter valid email' below it.

## Miks rWG?

Selle rakendusega võid unustada igava trennikava koostamise protsessi (või selle paberile kritseldamise) - rWG koostab selle sulle paari klikiga ja saadab lausa meilile (nii on seda mugav telefonist vaadata)!

## Lisaks saab kasutaja:

- Harjutusi lisada
- Harjutusi kustutada
- Harjutusi muuta
- Alamharjutuste kogust muuta
